THE OFFICIAL SELDENS LANDING STUDENT NEWSPAPER

## A Day to Celebrate the Brave

by Sam and Matthew

The Veteran's Day Concert took place on Friday, November 10, 2017. There was excitement in the air as the veterans entered the gymnasium.

Before this special event, we sat down with Mrs. Hrynyk to ask her some questions about the concert.

First, we asked Mrs. Hrynyk if she chose any new songs this year. Mrs. Hrynyk explained that the fifth graders are going to pick the songs new and old. Then we asked her how many songs are there. Mrs. Hrynyk responded there are about 8 songs. Her grandfather was in World War II and 3 uncles served in the army, 2 cousins and a aunt in the military. We thought that her family history was amazing!

At the annual concert Seldens students and staff honored around 75 veterans. Chorus did a great job!

This might have been the best Veteran's Day concert yet!

## Slithering Snake Survey-The Results

by Nate and Josie

And the winner is the **BLACK MAMBA!**

The black Mamba is the fastest and the deadliest snake on the planet! It slithers with terrifying speed interesting fact the black Mamba is not named for its color of its scale its named from its mouth which is inky black.

And in second place the **GREEN MAMBA!**

The green Mamba is not as deadly as its black Mamba cousin but is an expert climber and blends into the trees were the green Mamba lives. And yes it is green. But green Mambas usually eat rodents. sometimes they fall on their prey from a tree.

And in last place the **BOOMSLANG!**

Boom slang's climb straight up trees. They blend well into them. Boom slangs puff out their necks like balloons and finally they deliver the vicious bite! It is a impressive list of features for just one snake! But the real secret to the Boom slangs success is the eyes their almost human. Like us the eyes are located close to each other at the front of their head so they can see in 3D. It monitors the target with both eyes. Each eye is at a slightly different angle. Figuring out the exact distance between fang and target. A successful hunter with a bag of tricks and a vision to complete a kill.

Thank you SO MUCH again! Also thank you so much for voting!
